Subject: Honeyville's Manufacturing Qualifications and Legacy Claims

Honeyville, founded in 1951, has more than 60 years' experience in the food industry as a private-label, co-manufacturer. Our facilities (located in Honeyville, UT; Salt Lake City, UT; Phoenix, AZ.; Rancho Cucamonga, CA, and Cincinnati, OH) are among the highest-rated facilities in the country with SQF Level 2 (NSF) facility certification and additional 3rd party certifications including kosher, halal, organic, non-GMO, and gluten-free products.

We pride ourselves (including our nearly 400 employees) in the following:

- In-house, custom-processed high quality ingredients milled and manufactured to the highest U.S. standards.
- Honeyville's customer base includes many of the largest brand names in the food industry.
- Honeyville is certified gluten free by a 3rd party Gluten Intolerance Group recognized internationally by the GF™ symbol. Each batch of gluten free food is tested and verified to the recently updated FDA gluten free labeling standards.
- Honeyville's organic certification is audited by Organic Certifiers (3rd party).
- Ingredients supplied for product manufactured by Honeyville and claiming non-GMO have ingredient supplier non-GMO documentation for each ingredient.
- Honeyville's kosher certification is audited by Kehili Kosher (3rd Party).
- Honeyville is the sole ingredient provider for Legacy Premium and Legacy Essentials.
- Honeyville has custom sourced, researched, and developed formulations specific to meet the needs of Legacy's customer base.
- Honeyville maintains updated record and has reviewed the gluten free, kosher, non-GMO claims made by Legacy Premium and Legacy Essentials products.
- Claims reviewed by Honeyville and made by Legacy Premium and Legacy Essentials pertaining to non-GMO, gluten free, and Kosher are accurate.

We are excited to be manufacturing the Legacy Premium and Legacy Essentials products and look forward to the success and continual growth of Legacy Food Storage (LFS).

Sincerely,
