**Subject: Honeyville's Manufacturing Qualifications and Legacy Claims**

Honeyville, founded in 1951, has more than 70 years' experience in the food industry as a private-label, co-manufacturer. Our facilities are in Honeyville, UT; Ogden, UT, Los Angeles, CA, and Phoenix, AZ. Honeyville was recently awarded the "Redzone Plant of the Year" competing against our top peers and brands in the food industry for both our Ogden, UT and Rancho Cucamonga, CA facilities:

We pride ourselves (including our over 400 employees) in the following:

- In-house, custom-processed high quality ingredients milled and manufactured to the highest U.S. standards.
- A customer base that includes many of the largest brand names in the food industry.
- Honeyville is certified gluten free by a 3<sup>rd</sup> party Gluten Intolerance Group recognized internationally by the GF™ symbol. Each batch of gluten free food is tested and verified to the recently updated FDA gluten free labeling standards.
- Honeyville's organic certification is audited by Organic Certifiers (3<sup>rd</sup> party).
- Ingredients supplied for product manufactured by Honeyville and claiming non-GMO have ingredient supplier non-GMO documentation for each ingredient.
- Honeyville is the sole ingredient provider for Legacy Premium.
- Honeyville has custom sourced, researched, and developed formulations specific to meet the needs of Legacy's customer base.
- Honeyville maintains updated record and has reviewed the gluten free, kosher, non-GMO claims made by Legacy Premium.
- Claims reviewed by Honeyville and made by Legacy Premium pertaining to non-GMO, gluten free, and Kosher are accurate.

We are excited to be manufacturing the Legacy Premium and Legacy Essentials products and look forward to the success and continual growth of Legacy Food Storage (LFS).

Sincerely,

Johnny Ferry  
Vice President Business Development  
Honeyville, Inc.
